Object: Recommendation letter for Maria Cacciatore

To whom it may concern,

I've had the pleasure and the privilege of being Maria's Professor and program supervisor during the 3 years she spent studying at the Miami campus. She has been a delightful student. I have seen her mature academically and technically, often setting an example as work ethic for the entire class. Punctual, talented, dedicated, and professional, she has been an excellent student not only in my subject but in every course she has been challenged with. She is a team player and a nice person to be around, therefore I recommend Maria with the highest degree of confidence to every company or project you would make her part of, being sure she will be a valuable asset for your team.

Please feel free to reach me if you would like any further information or confirmation.

*Kind regards,
Mario Braghieri*
